**We're on a mission to build up the next generation of diverse STEAM innovators.**

## About Us

**A Little Bit of HOPE** is a 501(c)(3) nonprofit focused on building awareness for S.T.E.A.M opportunities in alignment with academia and corporate partnership to create equitable wealth opportunities for people of color and women. We focus on cultivating strong relationships with socioeconomically distressed communities and families, particularly K-12th grade students, while also aligning college bound students with opportunities for scholarships, internships, entrepreneurial, and STEAM careers.

- Community building in underserved regions to maximize resources and connections to develop youth.
- Enabling health and financial wellness for the personal and professional longevity of families.

## The Difference We Make

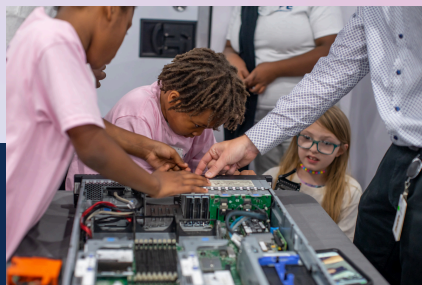

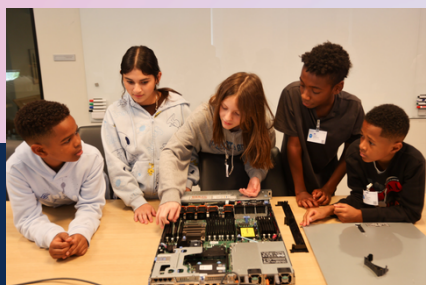

"I would like to thank A Little Bit of HOPE for the engaging experience they gave my students. It provided a unique opportunity for them to see their course work applied in a real-world environment. It was first rate. Thank you ALBH for investing in my students."
